Contents of Volume 13

JANUARY-FEBRUARY 1983

2 **Focus/Teleprocessing:** Developing an Information Center, by Ronald A. Frank
4 **American Bell Program Notes — Part 1, Reading Between the Lines,** Sheldon A. Fishman
9 **Voice Messaging — Today and Tomorrow,** Arthur M. Rosenberg and Donald H. Van Doren
18 **Managing an Incoming Call Operation: Forecasting Workload,** Robert L. Hayes and Ann J. Olsen
24 **Practical Traffic Engineering of Least Cost Routing Systems — Part 2, Estimated Offered Traffic From Printed Bills and CDR Printouts,** Michael T. Hills
31 **Communications Lines,** by Harry Newton
37 **New Product:** Voice Mail is Being Integrated Into PBXs
41 **Washington Perspective:** LATA Impact on Intercity Network and Private Line Access, by Victor J. Toth
46 **Regulatory Developments:** Status of Major FCC Inquiries
52 **BCR Seminars**
56 **Consultant's Corner:** Be Cautious About Integrating Voice and Data, by Richard A. Kuehn

MARCH-APRIL 1983

2 **Focus/Teleprocessing:** Taking Charge of Network Support by Ronald A. Frank
4 **Optimizing Networks,** Robert L. Ellis
12 **AIS/American Bell Program Notes — Part 2, "Hello World",** Sheldon A. Fishman
18 **Getting Ahead in Telecommunications,** Sharon L. Kander
23 **Practical Traffic Engineering of Least Cost Routing Systems — Part 3, Design of Callback and Camp-on Queuing Systems,** Michael T. Hills
30 **Operating in the New Environment: A Progress Report,** Jerry A. Goldstone
34 **Communication Lines** by Harry Newton
38 **Networks:** MCI's Digital Network
39 **New Product:** AIS Dimension System 85
47 **Washington Perspective:** The New Access Scheme: How It Will Influence Changes in User Services, by Victor J. Toth
51 **BCR Seminars**
55 **Consultant's Corner:** Changing Times, by Richard A. Kuehn

MAY-JUNE 1983

2 **Focus/Teleprocessing:** Building Telecom Professionalism, by Ronald A. Frank
4 **New Private Network Economics,** John W. Bridges and Joaquin J. Gonzalez
12 **Strategic Planning for Telecom Management in the 1980s,** Charles H. Nobs
18 **Computer-Aided Design Tool Helps Optimize TWA Data Network,** Eugene P. Sachsenmaier
23 **Cable Television: A New Business Communications Medium,** Gerhard Hanneman and Robert LaRose
30 **Practical Traffic Engineering of Least Cost Routing Systems — Part 4, Optimization of Multi-Band Networks,** Michael T. Hills
36 **Communication Lines by Harry Newton**
41 **New Product:** Ztel Inc. and CXC Corp. Announce Voice/Data Switches
45 **Washington Perspective:** A Crisis in the 1A2 Key System Market by Victor J. Toth
49 **BCR Seminars**
52 **Consultant's Corner:** Multi-Line Phones May Be Cheaper, by Richard A. Kuehn

JULY-AUGUST 1983

2 **Focus/Teleprocessing:** Personal Computers in Telecom Management, by Ronald A. Frank
4 **Operators to Entrepreneurs: The Expanding Role of Women in Telecommunications,** Lynn Carmack
17 **Practical Traffic Engineering of Least Cost Routing Systems — Part 5, "Peaked" Traffic: What It Is and When You Should Worry About It,** Michael T. Hills
23 **Learning from Experience: Videoconferencing Lessons,** David L. Green and Kathleen J. Hansell
28 **Extended Erlang C: Traffic Engineering for Queuing with Overflow,** Hugh Hoffman
34 **Communications Lines by Harry Newton**
38 **Office Automation Strategies:** Office Automation: Successes and Failures, by John M. McQuillan
40 **Letters**
41 **Washington Prospective:** FCC Acts to Implement the Access Charge Plan, by Victor J. Toth
44 **BCR Seminars**
48 **Consultant's Corner:** The Cost of System Support May Increase if Customers Don't Fight, by Richard A. Kuehn

SEPTEMBER-OCTOBER 1983

2 **Focus/Teleprocessing:** Planning for Disaster, by Ronald A. Frank
4 **Local Area Networks: Great Expectations,** Howard Frank
10 **Evolution of a Local Area Network at Dartmouth College,** Ronald A. Frank
14 **Getting Started in Teleconferencing,** Thomas B. Cross
19 **Practical Traffic Engineering of Least Cost Routing Systems — Part 6, Design of Tandem Networks: The Average Incremental Cost Method,** Michael T. Hills
27 **Private Networks in the Post-Divestiture Environment,** Ted W. Lanpher and Betty M. Byrne
32 **New Product:** High Speed Digital Communications Services
37 **Washington Perspective:** The Nation's Telephone System — On the Train or on the Tracks? by Victor J. Toth
41 **Office Automation Strategies:** Strategic Planning for Office Automation, by John M. McQuillan
43 **BCR Seminars**
47 **Consultant's Corner:** Good Inside Cable Plant Design and Management Can Save Money, by Richard A. Kuehn

NOVEMBER-DECEMBER 1983

2 **Focus/Teleprocessing:** Telecommuting May Change the Shape of Network Facilities, by Ronald A. Frank
4 **Alternative LAN Technologies: The Pros and Cons,** Howard Frank
11 **Practical Traffic Engineering of Least Cost Routing Systems — Part 7, Network Design Example,** Michael T. Hills
17 **A Manager's Guide to Telecommunications Consultants,** Ian Angus and Bob Koblovsky
24 **Cost Reduction by ARS Optimization,** Thomas E. Jones and Philip J. O'Donnell
28 **OCC Services: Are the Savings Really There?,** Ed Tomko
32 **Washington Perspective:** New Access Tariffs — Their Impact on Private Networks, by Victor J. Toth
37 **New Product:** NEC's New NEAX 2400 Information Management System
41 **Office Automation Strategies:** Designing Your Office Automation Architecture, by John M. McQuillan
43 **BCR Seminars**
47 **Consultant's Corner:** Some Thoughts on the Coming Era, by Richard A. Kuehn
48 **Contents of Volume 13**
